

BALDNESS.

Baldness and loss of Hair is caused by a want of healthy action of the vessels which throw off the perspiration from the head. When these vessels are weak or diseased, the perspiration is thick and clammy, and adheres to the mouths of the pores, and clogs them up, and dries and forms scurf or dandruff. Less blood is then carried to the roots of the hair, and for want of which the hair has not sufficient nourishment, and consequently becomes dry and harsh, and begins insensibly to fall off, which continuing to increase eventually produces baldness. Restore the capillary vessels of the hair to their former healthy circulation, and a fine silky new hair will make its appearance, which will increase in quantity and volume until the hair becomes thick and healthy.

Jayne's Hair Tonic is the only preparation that has ever been known to produce new hair on bald heads, which it has done in innumerable instances, and will seldom fail, if properly and perseveringly used.

This valuable preparation excites the scalp to a new and healthy action, cleanses it from scurf and dandruff, prevents the hair from falling off, or becoming prematurely gray, cures those eruptive diseases which often appear upon the head, and in a majority of cases, produces a fine growth of new hair. It also gives the hair a rich and beautiful appearance, unequalled by any thing of the kind.

Jayne's Expectant.—This is undoubtedly the most valuable, as it is decidedly the most popular medicine of its kind ever introduced into this State. The demand for it has been constant and increasing, from the time it was first offered for sale here, last January, to the present time. Numerous testimonials of its real worth and usefulness, from very many of our citizens might be produced: but a trial will satisfy all that it is a speedy cure for coughs, colds, influenza, asthma, hoarseness, and all kinds of pulmonary affections.

PROSPECTUS OF The Orange Ratoon, To be published in Hillsboro', N. C.

ABOUT the first of April proximo, the undersigned will commence in Hillsborough, N. C., the publication of a political journal to be called The Orange Ratoon. To give some time, to afford to those, who may feel disposed to encourage our enterprise an opportunity of procuring subscriptions we issue this prospectus.

The Ratoon will be thoroughly Democratic; devoted to that system of national policy originated by the immortal Jefferson, sanctioned and defended by the inimitable Jackson, and now being carried into effect and maintained with zealous ability by the present much abused, but, nevertheless indefatigable, wise and patriotic President of our Republic—James K. Polk. The most prominent features of this system are a moderate Tariff for revenue, based on *ad valorem* principles, and a strict construction of the constitution. To these our attention will be chiefly directed, but at the same time we will endeavor not to lose sight of other questions, which, though secondary to these, involve some of the most important interests of the nation; such, for instance are the questions of a National Bank, Distribution, Internal Improvements, &c., on all of which the Ratoon will be decidedly Democratic. But the discussion of these and all others must give way, for the present, to that of the all absorbing, deeply interesting and profitable question—the Mexican War; and, in relation to this it will be a strenuous defender of the course pursued by the present administration.

While the Ratoon will firmly and decidedly express and maintain its views, still it will treat, with all due respect, the opinions of those who may differ from it, and will studiously avoid that asperity of temper which characterizes so many partisan journals, and which has contributed to lessen in a great degree, the power of the press—the cogency of argument being destroyed when thus associated.

Besides being a political, the Ratoon will contain all the latest foreign and domestic news, and will publish a large amount of miscellaneous, literary, scientific and agricultural matter—so that all tastes may be gratified, and no department of useful knowledge neglected. We must say, also the state of the market shall receive especial attention; and of every fluctuation in it, our readers shall be advised.

On the permanency of our paper, the most implicit reliance may be placed; for were we not satisfied that it will be well sustained, that we shall be amply compensated for our exertions, we would, by no means incur the cares, responsibilities and vexations that necessarily devolve upon the editor and publisher of every political newspaper.

Before closing this prospectus, we cannot forbear calling to the minds of all true Democrats, the fact that, in this State there are twenty two Whig journals, and but nine of Democratic principles. To the least acute reasoner this cannot but satisfactorily account for the ascendancy so long preserved by the Whig party, and as long as it continues to be the case, this supremacy will be maintained. The benefit of an ably conducted journal, to either party, cannot easily be estimated; but the Whigs, in this State, can properly appreciate its value; which is evinced by the large number of their journals, and the ample support they extend to them. But we trust that this will not continue much longer; we are confident that the Democratic party will readily sustain any journal, advocating its principles, that is properly conducted; and, in addition to our desire for the promotion of interests of the party, this belief has induced us to establish a paper in Hillsborough. Our paper will shortly make its appearance, and we hope and anticipate, for it, a favorable reception.

TERMS.—The Ratoon will be printed on a large double medium sheet, at two dollars per annum, when payment is made within three months after the time of subscription; and if not paid within that period three dollars will, in all cases, be exacted.

THE ORIGINAL PROPRIETOR of these medicines was a native of the State of New York, and he has been for many years a resident of this State.

THE LIFE PILLS AND PHOENIX BITTERS PURIFY THE BLOOD.

And thus remove all disease from the system. A single trial will place the LIFE PILLS and PHOENIX BITTERS beyond the reach of competition in the estimation of every patient.

The genuine of these medicines are now put up in white wrappers and labels, together with a pamphlet, called "Moffat's Good Samaritan," containing the directions for their use, which is a drawing of Broadway from Wall Street to our Office, by which strangers visiting the city can very easily find us. The wrappers and labels are copyrighted, and therefore those who procure these with white wrappers can be assured that they are genuine. Be careful, and do not buy those with yellow wrappers; but if you do, be satisfied that they come direct from us, or direct from them.
